

## Double slip turnout DKW15

Art. No.: 42594

€55,90

Double slip turnout DKW15 with bedding, manually operated. Design "Baeseler" with switch rails located at the outside.

Length 230 mm (standard length), crossing angle 15°, effective branch radius 1050 mm.

For diagonal installation two D4 and one D 12 are included.

Owing to the geometrical characteristics of this type of double slip turnout it is necessary to always use it polarized.

Suitable turnout mechanisms (2 pieces are required): 42620 or 42624.

Please note the operating instructions!
