

4-pin data bus distributor module

Art. No.: 10758

€12,90

4-pole data bus distributor module for:

- Distribution to further input devices in the slave output of 10764
- Distribution to further input devices in the X-Bus output of 10832, 10820, 10822, z21
- Extension of a databus cable in slave output from 10764 or in X-Bus output from 10832, 10820, 10822, z21

Input Devices:

- Lokmaus 2/R3 (10760, 10792)
- Z21 multiMAUS (10810)
- Points keyboard (10770)
- RouteControl (10772)
- Rocomotion (10785)

Please note: The 10754 and 10756 databus cables cannot be extended in the 10764 master output, otherwise the quality of the data transfer is compromised.
