

Double slip turnout DKW15

Art. No.: 42451

€51,90

Double slip turnout DKW15, without turnout mechanisms. Design "Baeseler" with closure blades located at the outside.

Length 230 mm (standard length), crossing angle 15°, effective branch radius 1050 mm.

For diagonal installation two D4 and one D 12 are included.

Owing to the geometrical characteristics of this type of double slip turnout it is necessary to always use it polarized.

Suitable turnout mechanisms (2 pieces are required):

40295 or 40296 (electric turnout mechanism),

40297 or 40298 (manual turnout mechanism)

or 10030 (below baseboard mechanism).

Please note the operating instructions!
