

Crossing K15

Art. No.: 42597

€33,60

Crossing K15 with bedding.

Length 230 mm (standard length), crossing angle 15°.

The railroad lines that cross each other are not electrically isolated.

By using a 10019 relay it is possible to polarize the frogs and incorporate the crossing like a normal solenoid accessory in a route locking.

Two D4 and one D12 are included for diagonal installation.
