

Sleeper ROCO LINE

Art. No.: 42605

€10,90

With built-in reed switch, to be actuated by means of a 42256 magnet. This potential-free switching contact can be installed at any point of a track layout. The size and colour of the sleeper goes with the ROCO LINE-track, thus camouflaging the contact.

Can also be used as feedback-momentary contact along with feedback module 10787 or detector 10808.
