

Tramway “Jägermeister”

Epoch: III - IV
14+

Art. No.: 52580

6-axle articulated railcar that promotes the “Jägermeister”. Epoch III-VI.

Underfloor drive below bogie, allowing an uninterrupted view through the train with interior design.

Trams are an important part of the public transport in many cities. They differ from railways in that they take part in public traffic.

The articulated wagons “Duewag” operated in the Federal Republic of Germany, and as license wagons also in Austria. As a tram railcar the “Duewag” could be found in most major cities.

Specifications:

General data
