

Reed contact in plastic casing for geoLine tracks

Art. No.: 61193

€10,40

With fault clearance to avoid switching spikes and with buffer protection. With all geoLine tracks, this potential-free switch contact can be fitted in the places intended for it. Operated by magnet 42256. Can also be used as feedback-momentary contact along with feedback module 10787 or detector 10808.
