

Z21 WLANMAUS

Art. No.: 10813

€104,90

Control unit with many operation functions. Several Z21 WLANMAUS can be simultaneously operated – possible with all Z21 systems (z21 start combined with WiFi Package) or if your own router is available with Art. no. 10818 – z21 activation code. The Z21 WLANMAUS gives you wireless freedom around your layout.

- Wireless freedom, 29 functions per locomotive (including headlights)
- Control of up to 9999 locomotives and 2048 turnouts
- 100 locomotive addresses can be stored in the database and can be assigned with names (up to 10 digits)
- Locomotive control with 14, 28 or 128 speed steps
- Writing and reading of CV values 1–1024 on your locomotive decoder
- Display with adjustable brightness
- Controller with center position
- Operated with commercially available standard batteries (3 x AAA, not included in the delivery)
- 5 SSID passwords: current password + the 4 last passwords
- 10 sets of points with 10-character names and 10 points each
- Firmware updateable
