

Electric locomotive 1099.012-5, ÖBB

ÖBB

Epoch:

Art. No.: 33256

Narrow gauge electric locomotive 1099.012 of the Austrian Federal Railways.

- Finely detailed model with many separately applied plug-in parts
- With coat of arms "HOFSTETTEN/GRÜNAU"

Between 1911 and 1914, 16 locomotives of this type, specially designed for the Mariazellerbahn, were purchased by the former Lower Austrian Landesbahnen. Between 1959 and 1962, the locomotives were modernised while retaining the original chassis and, in particular, fitted with new locomotive bodies. The locomotives reached a maximum speed of 50 km/h and had a power output of 405 kW. Thirteen of the locomotives were officially named after communities situated along the Mariazellerbahn and provided with their coats of arms.

Specifications:

General data

Minimum radius	261 mm
Number of driven axles	6
Flywheel	yes

Electrical

Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture
Head light	Both sides of the vehicle are equipped with direction dependent triple headlights.

Measurements

Length over coupling	127 mm
