

## Electric locomotive 193 627-7, Raillogix

Epoch:

Art. No.: 73935

€209,90

Electric locomotive 193 627 of the Raillogix.

- Metallic paint
- With a long rain gutter
- Use in international freight transport
- The headlights can be completely or partially switched off with a DIP switch
- In cooperation with Railcolor Design

The first Vectron multisystem locomotive from Raillogix is particularly striking due to its red metallic paint. The company is one of the major intermodal rail operators in Europe. It serves not only the largest ports in Europe, but also the most important industrial regions in the European hinterland.

### Specifications:
