

## Diesel railcar 628 509-1, DB AG

Photomontage

Epoch: VI

14+

Art. No.: 72071

€344,90

Diesel railcar class 628.4 of the Deutsche Bahn AG in "Sylt Shuttle plus" design.

Model with digital decoder and digitally switchable sound functions as well as a factory installed and digitally switchable LED interior lighting. Equipped with a buffer capacitor for an uninterruptible power supply

- Separately mounted wipers
- Interior lighting can be switched via DIP switch
- Illuminated train destination display
- Precise replicas of the intercar links
- Special design of the subfloors
- Separately switchable lighting function

The "Sylt Shuttle plus" is available to travelers that have no car and need to commute between Westerland and Bredstedt / Husum or Hamburg-Altona. This creates an additional transportation option on the Marschbahn line.

### Specifications:

#### General data

Number of axles with traction tyres	1
Number of driven axles	2
Interior fitting	Model with interior furnishing
Interior fitting	Model with interior lighting
Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes

#### Electrical

Sound	yes
Interface	Electrical interface for traction units PluX22

**Electrical**

---

LED lighting	yes
Buffer capacitor	yes
Motor	5-pole motor
Switchable interior lighting	yes
Additional light function	yes
Digital decoder	PluX22
	MX645P22
LED head light	yes

**Measurements**

---

Length over buffer	533 mm
