

Electric locomotive class 189, Lokomotion

Epoch: VI
14+

Art. No.: 73317 €294,90

Electric locomotive class 189 of the Lokomotion.

Model with digital decoder and digitally switchable sound and light functions as well as buffer capacitor for uninterrupted power supply.

- Model with many separately applied plug-in parts

The private railway company Lokomotion, based in Munich, has been operating in the international freight traffic for almost 20 years. The company Lokomotion and its Italian subsidiary Rail Traction Company have been each operating 5 locomotives of the Siemens series 189 for several years now. These locomotives were bought by the locomotive leasing company MRCE and have been operating for the two companies ever since. The locomotives of the company Lokomotion have blue zebra stripes and the locomotives of the Italian subsidiary RTC have red zebra stripes.

Specifications:

General data

Number of axles with traction tyres	1
Number of driven axles	4
Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes

Electrical

Digital decoder	PluX22
Sound	yes
Interface	Electrical interface for traction units PluX22
Head light	Two direction dependent tail lights and dual headlights.
Motor	5-pole motor
LED head light	yes

Measurements

Length over buffer	225 mm
