

Electric locomotive 186 247-3, Railpool

Epoch: VI

14+

Art. No.: 79227

€319,90

Electric locomotive 186 247 of the Railpool in "Alpha Train" livery.

- With many separately applied plug-in parts partially designed with etching technology
- In cross-border use in front of goods trains
- In digital mode available with high beam light and individually switchable headlights or tail lights

The locomotives of the leasing company Alpha Trains are often resold. The loco 186 247 still bears the paintwork of its former owner although it is already operating for the company Railpool.

The 186 series is a multi-system locomotive from the second Traxx generation from Bombardier. With a service weight of 86 t, the locos deliver a power output of 5.600 kW. They reach a top speed of 160 km/h.

Specifications:

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Number of axles with traction tyres	2
Number of driven axles	3
Flywheel	yes

Electrical

Interface	Electrical interface for traction units PluX22
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
Digital decoder	PluX22
Decoder type	MX645P22
Sound	yes
LED head light	yes
Additional light function	yes
Buffer capacitor	yes

Measurements

Measurements

Length over buffer

217 mm
