Electric locomotive 1116 225 of the Austrian Federal Railways.

A matching Railjet train can be formed with the items 74085 and 74088.

The model is equipped with a four-pole electric coupling on one side. For push-pull train operation the current draw between the locomotive and the control cab coach of the Roco Railjet can be switched via micro-switches. This is only possible if the locomotive has an electric coupling.

- With switchable high beam and individually switchable headlights or tail lights
- Z21-Driver's cab available
- Licensed model of the ÖBB
