Art. No.: 73215 €289,90

Electric locomotive class 186 of the Lineas. Epoch VI.

Update!

With many separately applied plug-in parts that are partially etched. Engine with flywheel, drive on all four axles, one axle features traction tyres to increase traction power, LED headlight that changes automatically with the direction of travel, PluX22 interface, coupler pocket according to NEM 362 standards and close coupling mechanism.

Model with digital decoder and digitally switchable sound and light functions as well as a buffer capacitor for an uninterrupted power supply.

- Delicately painted model with “Lineas” design
- Used in the cross-border traffic and hauls goods trains

The Belgian company “Lineas” was founded in 2017 as the 100th subsidiary of the Belgian State Railways (SNCB). In the past, SNCB operated its logistics division under various brand names such as “B Cargo”, “SNCB Logistics” or “B Logistics”. Today, “Lineas” operates various locomotive series. The multi-system locomotives of the 186 series with their eye-catching design are also used in the neighboring foreign countries.

Specifications:

General data

Number of axles with traction tyres	1
Number of driven axles	4
Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes

Electrical

Digital decoder	PluX22
Sound	yes
Interface	Electrical interface for traction units PluX22
Head light	Two direction dependent tail lights and dual headlights.

Electrical

Buffer capacitor	yes
------------------	-----

Motor	5-pole motor
-------	--------------

LED head light	yes
----------------	-----

Measurements

Length over buffer	217 mm
--------------------	--------
