

## Electric locomotive class 383, ZSSK

Epoch: VI

14+

Art. No.: 73913

Electric locomotive class 383 of the Slovakian State Railways.

- Version with a long rain gutter
- Use in the cross-border traffic
- The headlights can be completely or partially switched off with a DIP switch

The Slovakian State Railways have rented ten Vectron-MS locomotives for their freight division ZSSK Cargo. These machines are equipped with the country package DE-AT-PL-CZ-SK-HU-RO-HR-SI. This means that intermodal/car and goods transport can be carried out without having to change locomotives at the country borders/system boundaries.

### Specifications:

#### General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Number of axles with traction tyres	1
Number of driven axles	4
Flywheel	yes

#### Electrical

Interface	Electrical interface for traction units PluX22
Head light	Two direction dependent tail lights and dual headlights.
LED head light	yes
Additional light function	yes

#### Measurements

Length over buffer	218 mm
