

Electric locomotive class 383, ZSSK

Epoch: VI
14+

Art. No.: 73914 €299,90

Electric locomotive class 383 of the Slovakian State Railways.

- Version with a long rain gutter
- Use in the cross-border traffic
- In digital mode, with switchable high beam and individually switchable headlights and taillight
- Sound development in cooperation with Leosoundlab

The Slovakian State Railways have rented ten Vectron-MS locomotives for their freight division ZSSK Cargo. These machines are equipped with the country package DE-AT-PL-CZ-SK-HU-RO-HR-SI. This means that intermodal/car and goods transport can be carried out without having to change locomotives at the country borders/system boundaries.

Specifications:

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Number of axles with traction tyres	1
Number of driven axles	4
Flywheel	yes

Electrical

Interface	Electrical interface for traction units PluX22
Head light	Two direction dependent tail lights and dual headlights.
Interior lighting	LED
Interior lighting	Digital switchable
Interior lighting	Driver's cab lighting
Digital decoder	PluX22
	MX645P22
Sound	yes

Electrical

LED head light	yes
----------------	-----

Additional light function	yes
---------------------------	-----

Buffer capacitor	yes
------------------	-----

Measurements

Length over buffer	218 mm
--------------------	--------
