

Steam locomotive class 736, FS

Epoch: III
14+

Art. No.: 73045 €424,90

Steam locomotive class 736 of the Italian State Railways.

- True to original model equipped with coal tender and one headlight
- Delicate plug-in parts
- With white wheel tyres
- The locomotive perfectly matches the hospital train.

The FS bought a total of about 248 locomotives of the designated 736 series S160 steam locomotives. The locomotives were all rebuilt and got an oil firing mounted at the FS. 8 locomotives kept their original design. Before they were used in Italy, the locomotives often traveled in North Africa or were imported directly from America.

Specifications:

General data

Number of axles with traction tyres	2
Number of driven axles	2
Coupling	In-house produced coupling
Minimum radius	358 mm
Flywheel	yes

Electrical

Interface	Electrical interface for traction units PluX22
Sound	yes
Motor	5-pole motor
Digital decoder	PluX16 MX645P22
LED head light	yes

Measurements

Length over buffer	211 mm
