

## Electric locomotive 430 364-0, SBB

Epoch: VI

14+

Art. No.: 71404

€334,90

Electric locomotive 430 364 of the Swiss Federal Railways.

- Model in current design and green livery now available for the first time. It also carries UIC numbers
- Ideal for double traction with the Re 620
- Model with separately applied parts which are partially etched
- Z21-Driver's cab available

The locomotives Re 4/4<sup>II</sup> and Re 4/4<sup>III</sup> were all delivered in green livery, with the exception of the TEE locomotives and their last lot. After that, when the Swiss Federal Railways carried out major revisions, fire-red became their standard colour. As one of the last locomotives of the SBB Group, the locomotive, now designated 430 364-0, has kept the green colour during all her service life.

### Specifications:

#### General data

Number of axles with traction tyres	1
Number of driven axles	4
Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes

#### Electrical

Digital decoder	PluX22
Sound	yes
Interface	Electrical interface for traction units PluX22
Head light	Light changes true to the Swiss original - direction dependent
Additional light function	yes
Motor	5-pole motor
Buffer capacitor	yes
LED head light	yes

**Measurements**

---

Length over buffer

177 mm
