

## Electric locomotive class 193, RTB CARGO

Photomontage

Epoch: VI  
14+

Art. No.: 71926 €209,90

Electric locomotive class 193 "Vectron" of the RTB CARGO. \* Original model: Multiple-system version \* Model with long rain gutter \* The locomotive is used for the international goods traffic. The history of the RTB CARGO Group starts with the existing passenger traffic of the Dürener Kreisbahn in and around Düren, close to the border triangle Germany-Belgium-Netherlands in the west of the Federal Republic of Germany. Over the years, the regional railway company "Rurtalbahn" has developed into an internationally operating group of companies that operates borderless in the field of block train traction in Germany, Belgium, Austria and the Netherlands as well as with partner companies in other countries.

### Specifications:

#### General data
