

# Stake wagon, ÖBB

Epoch: IV - V

14+

Art. No.: 34580

€31,90

4-axle narrow gauge stake wagon type SSm/s of the Austrian Federal Railways.

- \* Mold variant !
- \* The wagon has a true to original underbody and new stakes
- \* The floor of the brakeman's platform is made from checker plate aluminium
- \* Frame is equipped with winches.
- \* A partition separates the brakeman's platform from the loading bed
- \* Etched labelling plates mounted on the frame.

The wagon factory Busch in Bautzen delivered from 1942 narrow-gauge goods wagons to the German Reichsbahn. As the wagons remaining in Austria after the Second World War were mainly used for timber transport, they received various modifications. At the ÖBB these converted wagons were designated SSm / s. Some of these wagons were equipped with robust sheet metal end walls and firmly welded stanchions.

## Specifications:

### General data

Coupling In-house produced coupling

### Measurements

Length over coupling 128 mm
