

3 piece set "Railjet", ÖBB

ÖBB

Epoch: VI

14+

Art. No.: 74088

€269,90

3 piece set "Railjet" of the Austrian Federal Railway in current design with family and quiet zone lettering. The set contains a 1st class wagon and two Economy-Class wagons.

Interior design imitation depending on the classification of each coach. The models have sophisticatedly designed wagon transitions. Each wagon is designed in longitudinal scale 1:87.

- For the first time in updated design with zone lettering
- Train operates on the lines between Salzburg Central Station and Vienna Central Station
- The set perfectly matches the items 79267 and 74085
- The model features interior lighting and power supplied couplers
- Licenced ÖBB model

In the ÖBB Railjet, the coaches with a quiet zone and family zone are now also made visible on the outside. The family zone sign is marked in a bright blue. There the interior is designed especially for families with children. The quiet zone sign is recognizable by the colour green and can be found both in the first class and in the second class coaches. The quiet zone thus becomes an area where you can travel relaxed, chill out or work in peace. The pictograms at the access of the coaches mark the way to both zones. The outside markers will then be gradually attached to all Railjet units.
