

4 piece electric multiple unit 407 008-2 "Velaro", DB AG

Epoch: VI

14+

Art. No.: 72094

€446,90

4 piece electric multiple unit 407 008 "Velaro" of the Deutsche Bahn.

The 4-part set contains a 1st class end car, a 1st class converter car with restaurant, a 2nd class center wagon and a 2nd class end car.

- The model with green stripes and current lettering is available for the first time
- Drive mechanism in the center coach, power draw from the cab car for precise braking
- Scale model
- Model with current-conducting couplers
- Z21-Driver's cab available

In the years from 2009 to 2012, Siemens supplied the Deutsche Bahn AG with a total of 17 ICEs of the series 407, which at the time were named "Velaro". The trains are designed to reach a maximum speed of 320 km / h in AC operation and 220 km / h in DC operation. Thanks to its various country packages, the trains are very reliable and therefore can also be used in the daily international traffic to France.

Specifications:

General data

Interior fitting	Model with interior furnishing
Interior fitting	Driver's cab
Coupling	In-house produced coupling
Minimum radius	358 mm
Number of axles with traction tyres	4
Number of driven axles	4
Flywheel	yes

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
Interface	Electrical interface for traction units PluX16

Electrical

LED head light	yes
