

## 2 piece set tank wagons, GATX

Epoch: VI

14+

Art. No.: 76028

Set of two 4-axle tank wagons, type Zacns, of the GATX.

- With new running numbers
- Fine free-standing handrails
- Perforated walkway grids in delicate design
- Model with large GATX lettering

The four-axle tank wagon with a capacity of 95 m<sup>3</sup> is used for transporting light-colored petroleum products such as kerosene, petrol, diesel, fuel oil and liquid chemicals. A typical feature of this type of wagon is the lowered walkway grid at the transition to the fill cover.

### Specifications:

#### General data
