

Steam locomotive Oi2, PKP

Photomontage

PKP

Epoch: III - IV

14+

Art. No.: 72061

€342,90

Passenger train steam locomotive with a 3-axle towing tender type Oi2 (ex DRG class 24) of the Polish State Railways.

- Finely detailed model with many separately applied plug-in parts
- PKP design with PluX22 interface and PluX sound decoder available for the first time
- With white wheel tyres
- Featuring large lamps in the typical Polish design
- In digital mode available with switchable shunting light
- The smoke generator can be retrofitted

The class 24 locomotives were initially intended for use in passenger trains. Its application field was soon extended to light goods trains. Thanks to its massive design, it was considered a reliable multi-purpose locomotive for lighter services. Thirty-four locomotives remained in Poland after the Second World War, where the last locomotive was in operation until 1976.

Specifications:

General data

Number of axles with traction tyres	2
Number of driven axles	2
Coupling	Close coupler motion link between locomotive and tender
Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Smoke generator retrofittable	yes
Smoke generator Article number (digital)	Seuthe no. 11
Flywheel	yes

Electrical

Head light	Direction dependent dual headlights
------------	-------------------------------------

Electrical

Interface	Electrical interface for traction units PluX22
Buffer capacitor	yes
Additional light function	yes
Sound	yes
Motor	5-pole motor
Digital decoder	PluX22
LED head light	yes

Measurements

Length over buffer	196 mm
--------------------	--------
