

Electric locomotive class 1043, ÖBB

Photomontage

ÖBB

Epoch: IV

14+

Art. No.: 70454

€339,90

Electric locomotive class 1043 of the Austrian Federal Railways.

- Authentic Swedish design with ÖBB wing-wheel with umbra grey-painted roof
- Delicately etched plates with locomotive numbers are attached to the package
- Authentic roof design
- Converted lamps according to ÖBB standards
- In digital mode available with switchable high beam light and individually switchable headlights or tail lights

To meet the need for rapid delivery of new locomotives for the freight transport on the "Tauernbahn", the ÖBB branched off four locomotives from the series production of the Swedish type Rc 2. The locomotives excelled with thyristor technology and quickly proved perfect for freight transportation. Until 1974 ten locomotives were delivered to the ÖBB. Hardly any other series of the ÖBB had such a wide variety of lettering variants in its service life.

Specifications:

General data

Coupling	NEM shaft 362 without close coupling mechanism
Minimum radius	358 mm
Number of axles with traction tyres	1
Number of driven axles	4
Flywheel	yes

Electrical

Interface	Electrical interface for traction units PluX22
Head light	Direction dependent triple headlights and one tail light
Digital decoder	PluX22
Decoder type	MS450P22
Sound	yes
LED head light	yes
Additional light function	yes
