

## Steam locomotive class 55, DR

DR

Epoch: IV

14+

Art. No.: 72046

€224,90

Steam locomotive class 55 of the Deutsche Reichsbahn.

- Finely detailed model with many separately applied plug-in parts
- With inserted lamp glass available in the ROCO programme for the first time
- Die-cast metal chassis
- Printed signs with lettering 55 4154-5 and 55 5110-6 included with model
- FLEISCHMANN PROFIL plug-in coupling for replacement is included

The series 55.25-56 locomotives (former Prussian G 8.1), of which almost 5.000 units were built, had a power output of 1.260 hp and reached a top speed of 55 km/h. The loco was mainly used in goods trains and for heavy shunting services.

### Specifications:

#### General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Number of axles with traction tyres	1
Number of driven axles	2
separate etched plates	yes
Flywheel	yes

#### Electrical

Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture
Head light	Direction dependent dual headlights
LED head light	yes

#### Measurements

Length over buffer	210 mm
