

Steam locomotive class 38, DR

DR

Epoch: IV

14+

Art. No.: 71382

n.N

Steam locomotive class 38 of the railway company of the German Democratic Republic (Deutsche Reichsbahn).

- Completely new design
- Finely detailed model with many separately applied plug-in parts
- Wheels with fine spokes
- Design with riveted tender and "Wagner" smoke deflectors
- Model with digital decoder and digitally switchable sound and light functions as well as buffer capacitor for uninterrupted power supply

The class 38 steam locomotives were stationed in many depots of the Deutsche Reichsbahn. They were mainly used in the passenger service and hauled Reko-wagons and other types of coaches. Many locomotives had a classic appearance and featured riveted tenders and "Wagner smoke deflectors".

Specifications:

General data

Minimum radius 358 mm

Electrical

Interface Electrical interface for traction units PluX22

Head light Both sides of the vehicle are equipped with direction dependent triple headlights.

Digital decoder PluX22

Sound yes

LED head light yes

Measurements

Length over buffer 214 mm
