

Digital amplifier

Art. No.: 10764

€184,90

The amplifier provides two direct connections ('master' & 'slave') for a Z21 multiMAUS and, for example, another mouse. The amplifier prepares the 'Master mouse' data for running and switching operation.

Other Z21 multiMAUS devices, Routecontrols or the interface with Rocomotion can only be connected on the 'slave' output. If you want to plug in other input units you can obtain an affordable Y adapter bearing item number 10758.

50 VA power in combination with transformer item no. 670601, 10851.

The track output delivers 3.2 A.
